

**Schedule XXXIII (Only for PG Institute)**  
**Minimum requirements for Quality Testing Laboratory**  
(In case of PG in Dravyaguna or Rasashastra Bhaishajya Kalpana)

| Serial number | Particulars                                                         | Available /Not Available | Deficiency |
|---------------|---------------------------------------------------------------------|--------------------------|------------|
| 1.            | Florescence inverted Microscope with software                       | NA                       |            |
| 2.            | UV-VIS Spectrophotometer                                            | NA                       |            |
| 3.            | Micro Controller Based Flame Photometer                             | NA                       |            |
| 4.            | Rota Evaporator                                                     | NA                       |            |
| 5.            | Stability Chamber                                                   | NA                       |            |
| 6.            | Freeze dryer                                                        | NA                       |            |
| 7.            | Trinocular Microscope with software, camera and projection facility | NA                       |            |
| 8.            | Polarimeter                                                         | NA                       |            |
| 9.            | Muffle furnace                                                      | NA                       |            |
| 10.           | Orbital Shaking Incubator                                           | NA                       |            |
| 11.           | Co 2 Incubator                                                      | NA                       |            |
| 12.           | Tablet Disintegration Apparatus                                     | NA                       |            |
| 13.           | Optic Abbe Refractometer                                            | NA                       |            |
| 14.           | Friability Test Apparatus                                           | NA                       |            |
| 15.           | Digital Melting Point Apparatus                                     | NA                       |            |
| 16.           | Laminar Air Flow                                                    | NA                       |            |
| 17.           | Water still                                                         | NA                       |            |
| 18.           | Rotary Microtome and Microtome Object Holder                        | NA                       |            |
| 19.           | Digital pH Meter                                                    | NA                       |            |
| 20.           | Moisture analyzer Balance                                           | NA                       |            |
| 21.           | Orbital Shaker                                                      | NA                       |            |
| 22.           | Mechanical Stirrer with Hot Plate                                   | NA                       |            |
| 23.           | Magnetic Stirrer                                                    | NA                       |            |
| 24.           | Dissolution Test Apparatus                                          | NA                       |            |
| 25.           | Hardness tester                                                     | NA                       |            |
| 26.           | Mohs hardness scale                                                 | NA                       |            |
| 27.           | Tablet counter small size                                           | NA                       |            |
| 28.           | Dissolution Test Apparatus                                          | NA                       |            |
| 29.           | Bulk Density Apparatus                                              | NA                       |            |
| 30.           | Viscometer                                                          | NA                       |            |
| 31.           | Analytical Balance Digital High precision (0.0001g 220g)            | NA                       |            |
| 32.           | Incubator                                                           | NA                       |            |
| 33.           | Clarity test apparatus                                              | NA                       |            |
| 34.           | Humidity Control Oven                                               | NA                       |            |
| 35.           | Karlfischer Apparatus                                               | NA                       |            |
| 36.           | Sieve Shaker                                                        | NA                       |            |
| 37.           | Granulating sieve set                                               | NA                       |            |
| 38.           | Thermometers                                                        | NA                       |            |
| 39.           | Centrifuge                                                          | NA                       |            |
| 40.           | Filtration equipment                                                | NA                       |            |
| 41.           | Water bath 12 holes                                                 | NA                       |            |
| 42.           | Suction Pump                                                        | NA                       |            |
| 43.           | Sonicator                                                           | NA                       |            |
| 44.           | Heating Mantle different capacity                                   | NA                       |            |
